

Residuum<sup>2</sup> of evec n+1 when reconstructed from blocked 1..n

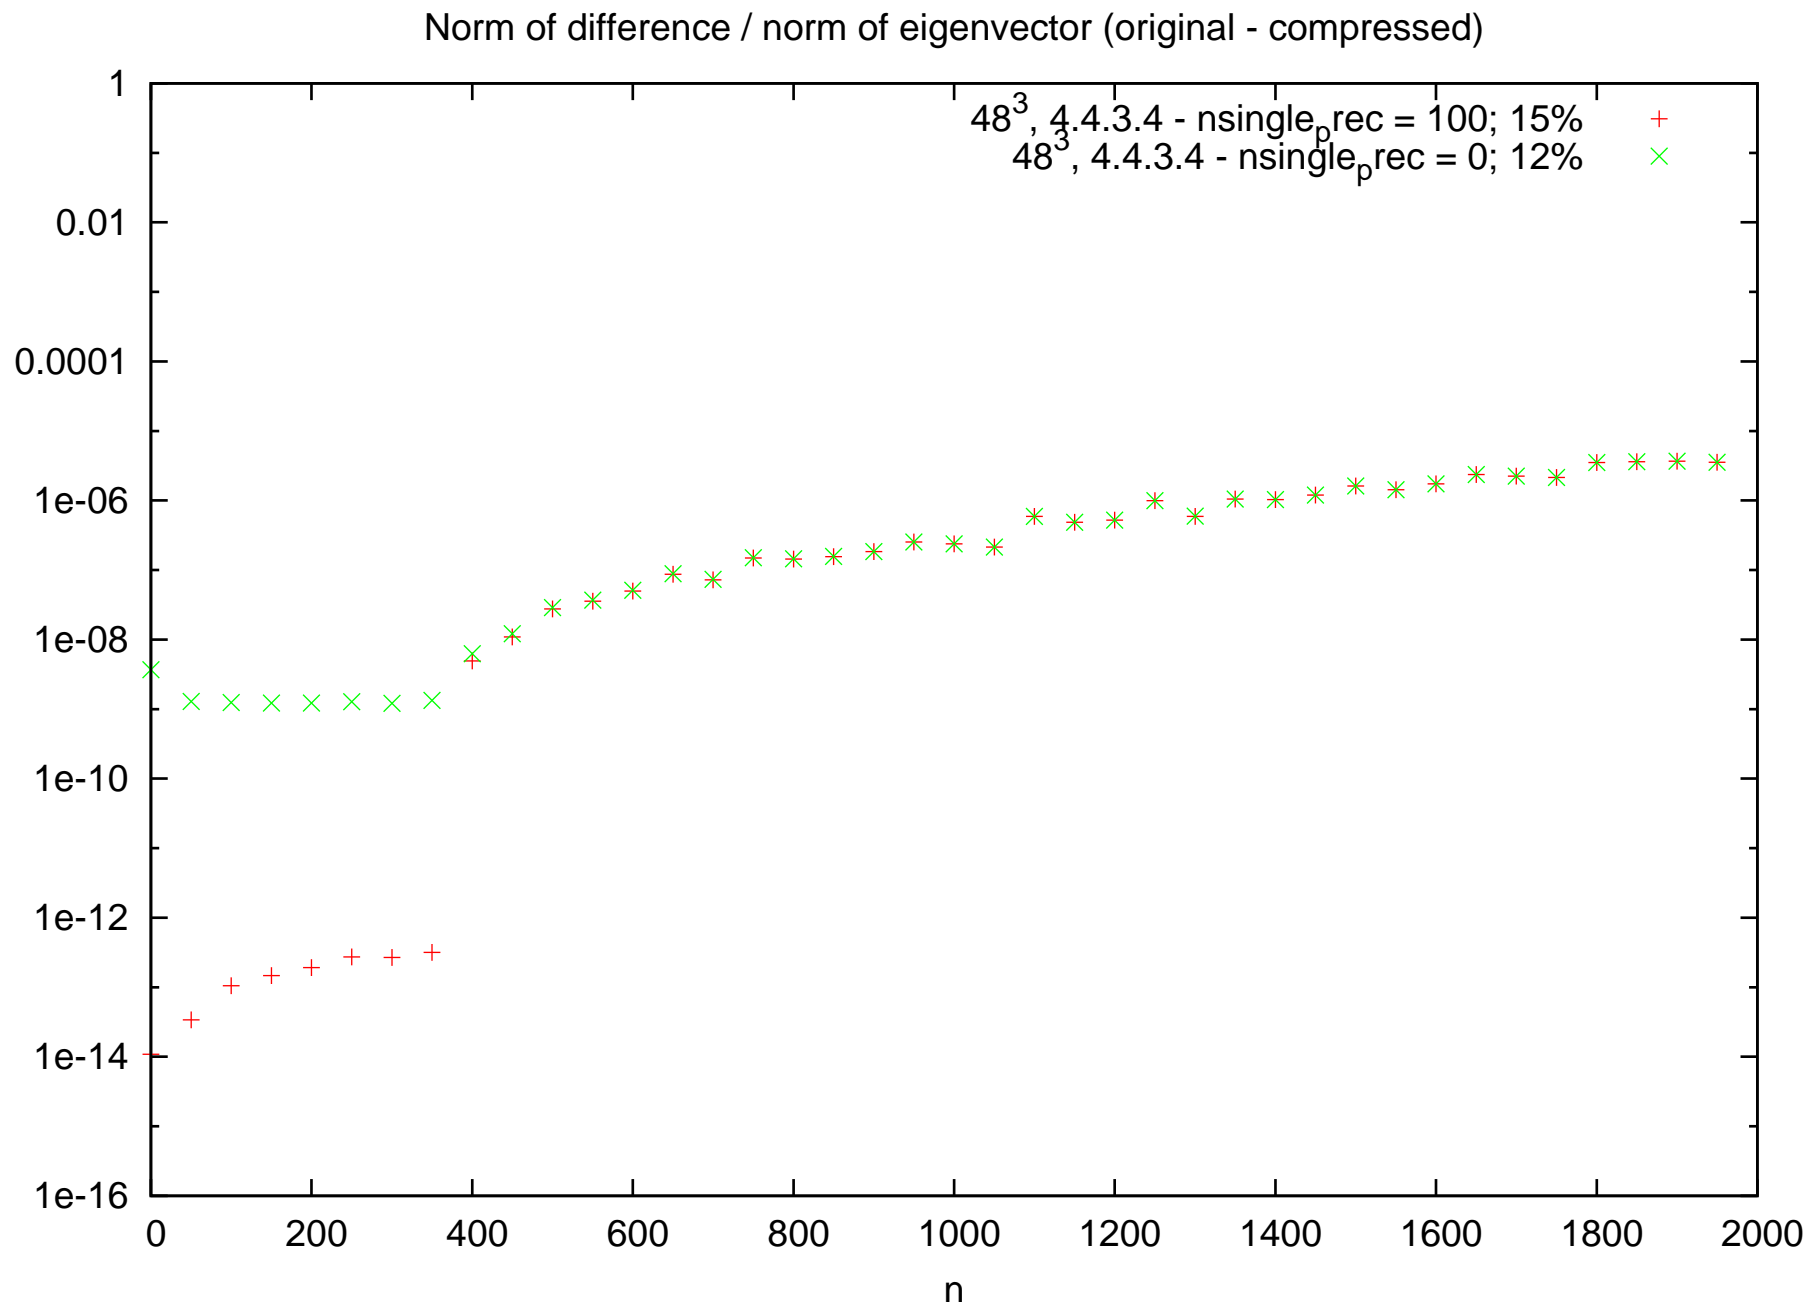

Residuum<sup>2</sup> of evec n when reconstructed from blocked 1..400

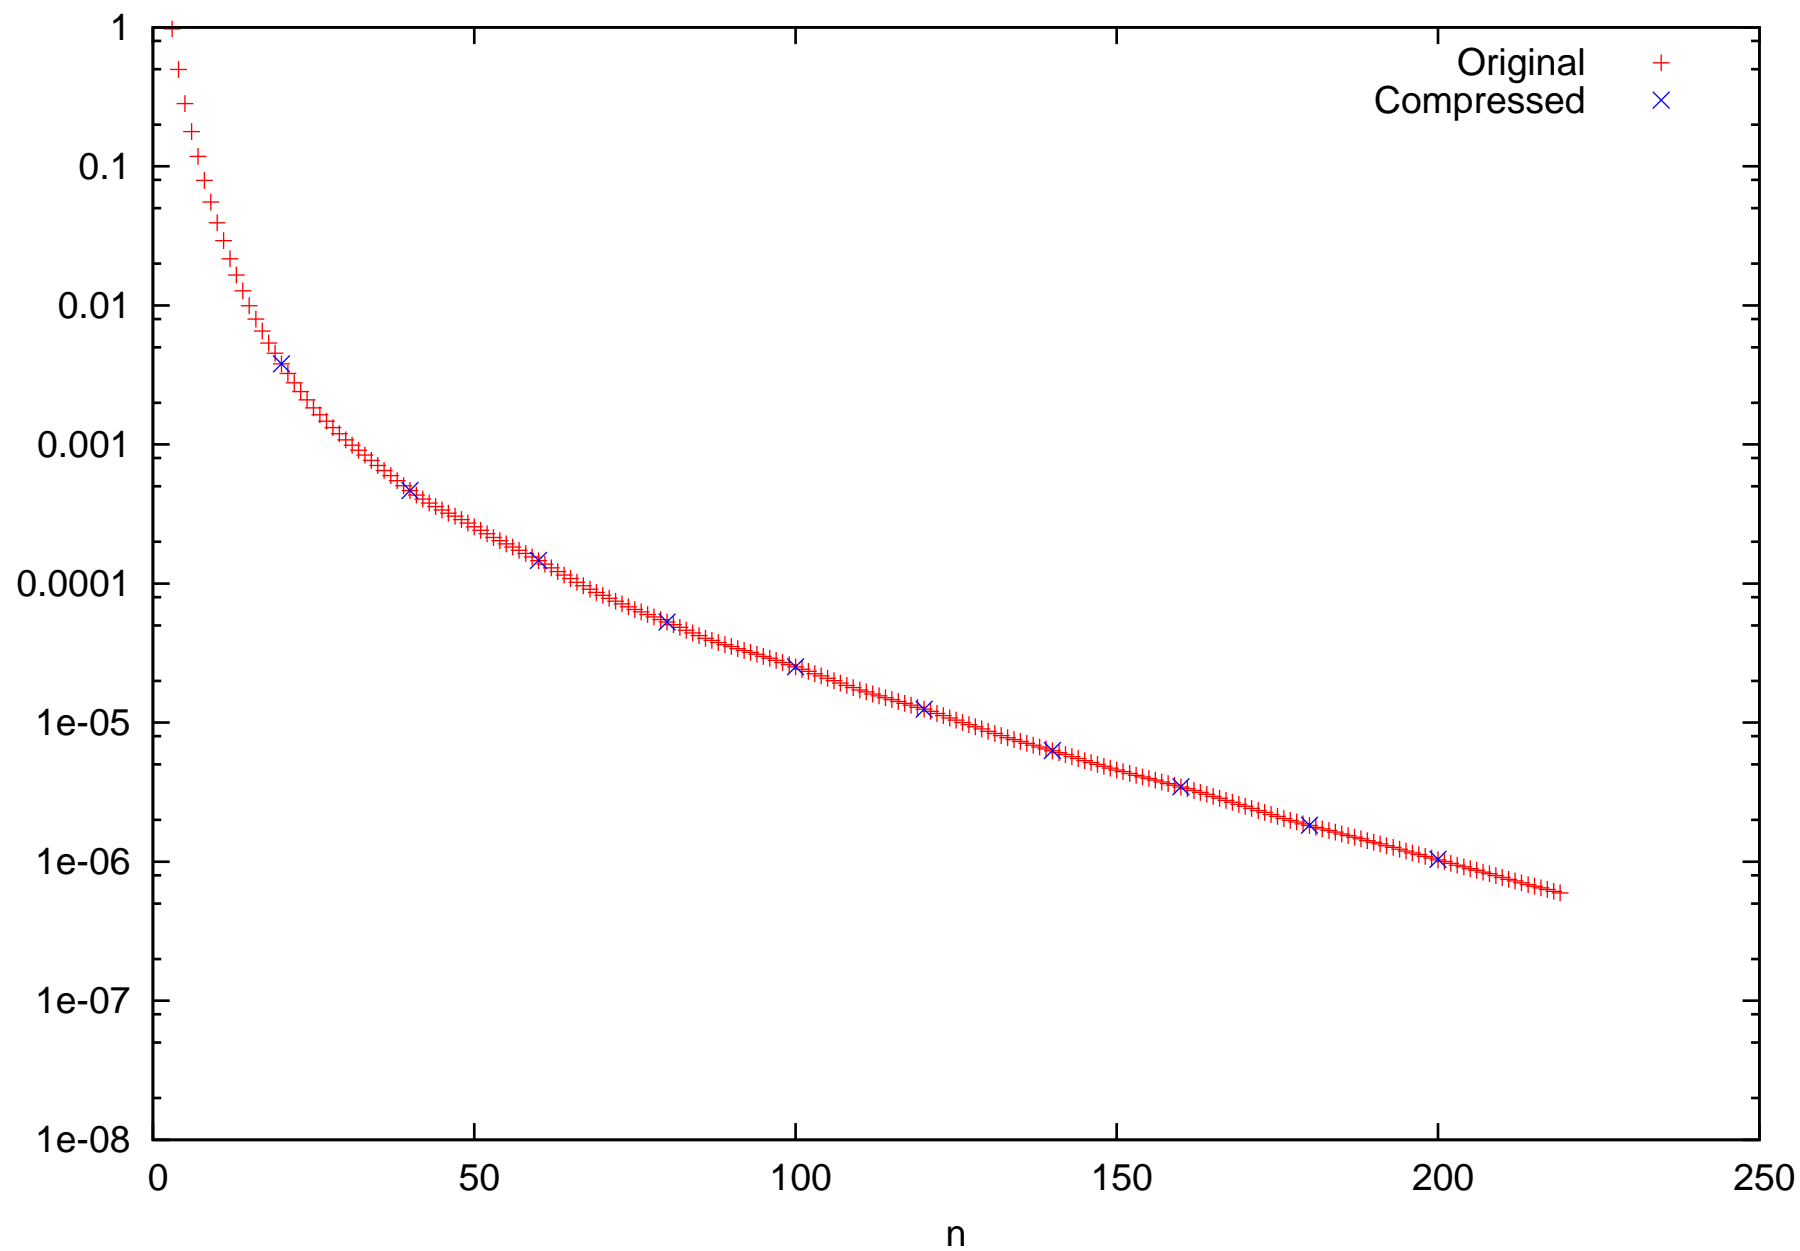

$48^3$  eigenvalue distribution

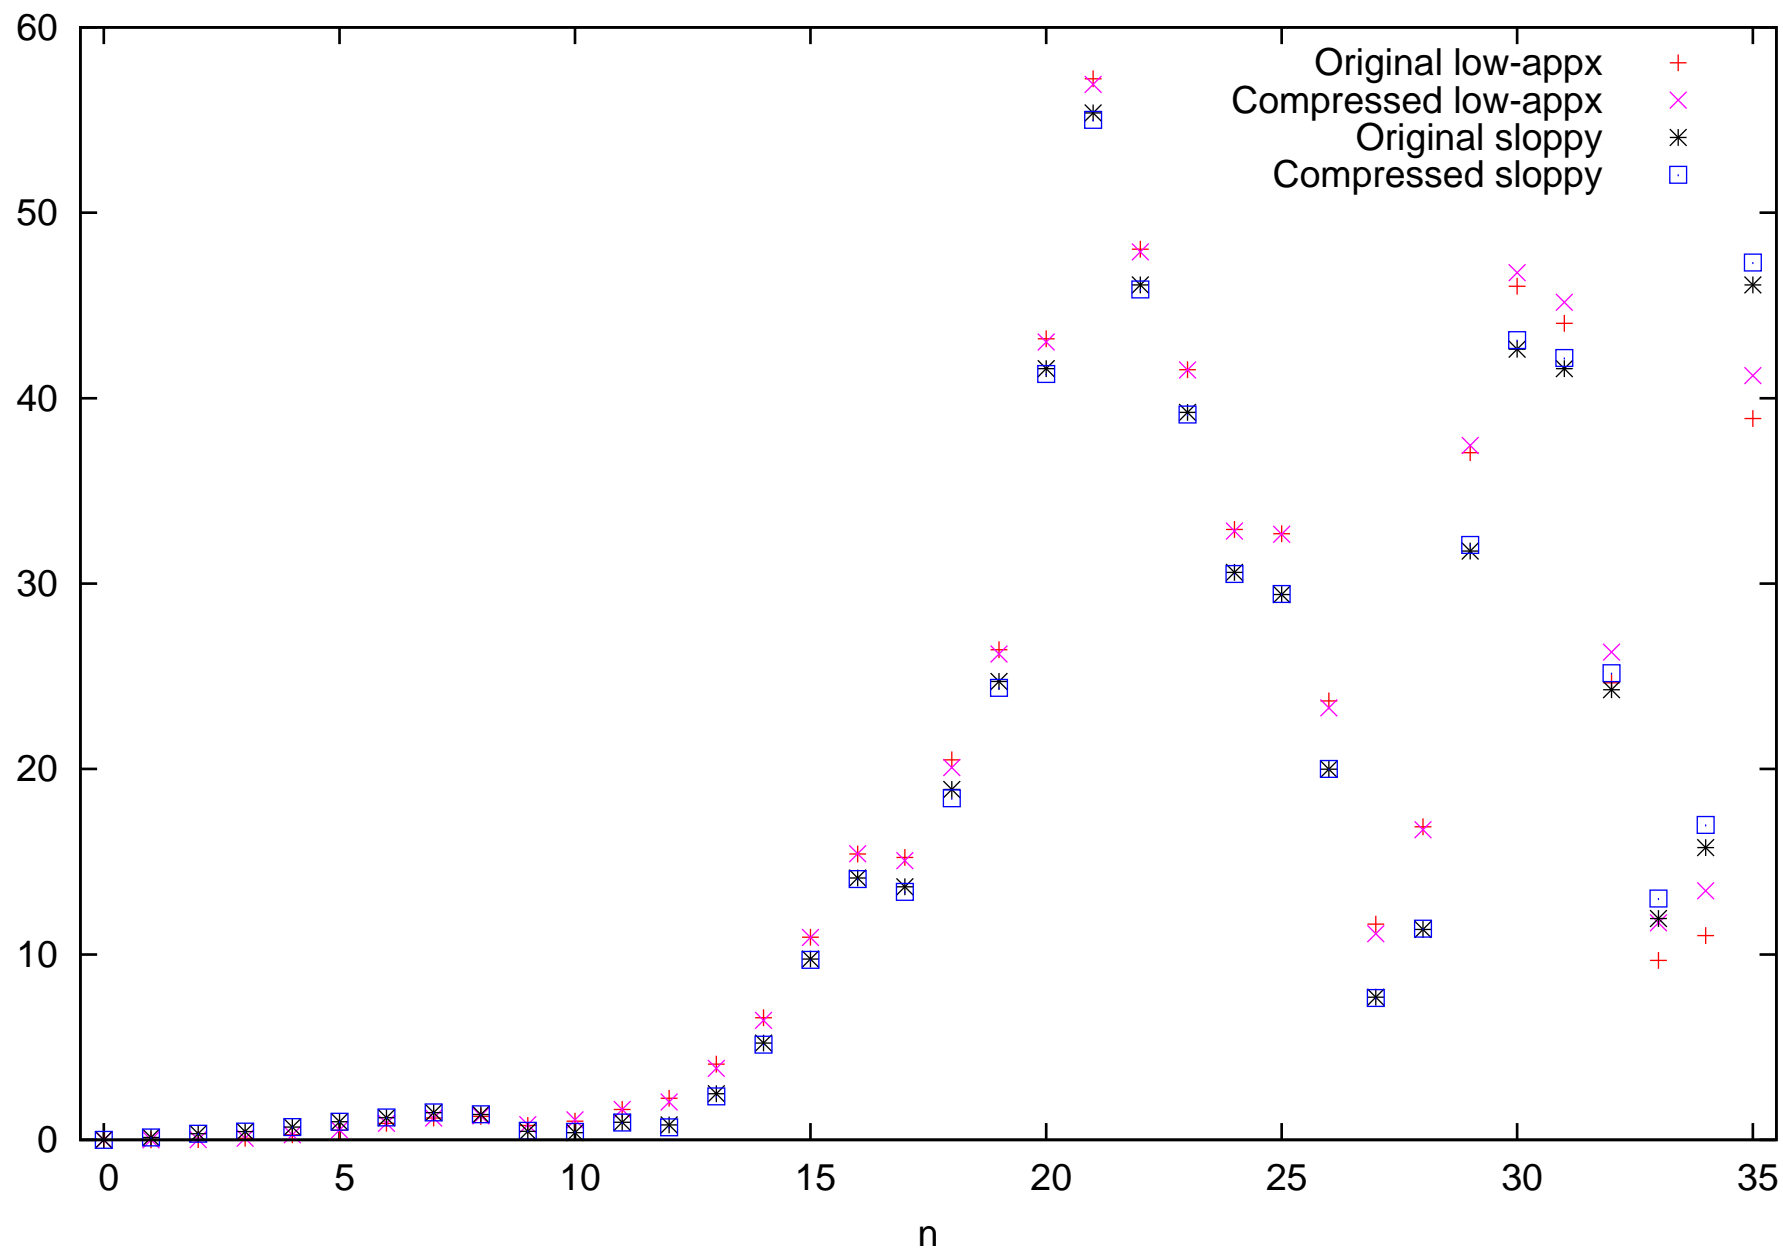

Effect on CG convergence on  $48^3$  ensemble 980

Effect on single point source  $C(t) t^4$  on  $48^3$  ensemble 980

Effect on full low-mode reconstruction  $C(t) t^4$  on  $48^3$  ensemble 980
